

StarForth Experimental Results
Design of Experiments Campaigns and Analysis Reports

Robert A. James

Contents

I	Design of Experiments Framework	1
1	Experimental Design Overview	3
2	Null Hypothesis and Falsification Criteria	5
3	Negative Results and Sensitivity Analysis	7
II	2^7 Factorial Campaign	9
4	Campaign Design	11
5	Incompatible Configurations	13
6	Campaign Results — 90 Runs	15
7	Campaign Results — 300 Runs	17
III	L8 Attractor Map Campaign	19
8	Campaign Design and Execution	21
9	Mathematical Framework	23
10	Heartbeat Analysis	25
11	Comprehensive Results	27
12	Binary 2-Cycle Analysis	29
IV	Window Scaling Campaign	31
13	Campaign Design	33
14	Results and Analysis	35
V	James Law Protocol	37
15	Protocol Definition	39

VI	Supplementary Campaigns	41
16	Heartbeat DoE	43
17	Physics Optimization DoE	45
18	L8 Validation	47
19	Shape Validation	49
A	Reproducibility Protocol	51
B	Replication Invitation	53
C	R Script Inventory	55

Part I

Design of Experiments Framework

Chapter 1

Experimental Design Overview

Chapter 2

Null Hypothesis and Falsification Criteria

Chapter 3

Negative Results and Sensitivity Analysis

Part II

2^7 Factorial Campaign

Chapter 4

Campaign Design

Chapter 5

Incompatible Configurations

Chapter 6

Campaign Results — 90 Runs

Figure 6.1: Main effects plot — 90-run campaign (figure pending)

Chapter 7

Campaign Results — 300 Runs

Figure 7.1: Main effects plot — 300-run campaign (figure pending)

Part III

L8 Attractor Map Campaign

Chapter 8

Campaign Design and Execution

Chapter 9

Mathematical Framework

Chapter 10

Heartbeat Analysis

Chapter 11

Comprehensive Results

Chapter 12

Binary 2-Cycle Analysis

Part IV

Window Scaling Campaign

Chapter 13

Campaign Design

Chapter 14

Results and Analysis

Part V

James Law Protocol

Chapter 15

Protocol Definition

Part VI

Supplementary Campaigns

Chapter 16

Heartbeat DoE

Chapter 17

Physics Optimization DoE

Chapter 18

L8 Validation

Chapter 19

Shape Validation

Appendix A

Reproducibility Protocol

Appendix B

Replication Invitation

Appendix C

R Script Inventory
